ABOUT COMPANY

Our advanced manufacturing infrastructure, supported by trusted partners, complies with WHO-GMP and ISO 9001:2015 standards—guaranteeing quality and efficiency throughout the production lifecycle.

As a trusted global manufacturer and distributor, Green Apple Pharmaceuticals proudly partners with distributors, importers, hospitals, clinics, pharmacies, healthcare professionals, and patients in over 80 countries. With a robust portfolio of 500+ specialized products, we are dedicated to delivering quality healthcare that transcends borders.

Driven by our core values—quality, integrity, and innovation—we remain focused on enhancing human lives and making a meaningful contribution to global health and well-being.

EXECUTIVE OVERVIEW

At Green Apple Pharmaceuticals, our mission is to advance global healthcare by delivering innovative, reliable, and high-quality pharmaceutical solutions. Every stage of our process from research and development to manufacturing is aligned with international standards, ensuring excellence and precision.

We are dedicated to addressing the evolving needs of patients worldwide by providing safe, effective, and dependable treatments. As we grow, we remain anchored in our core values: integrity, innovation, and sustainability. By leveraging technology and driving continuous improvement, we strive to build a healthier world one solution at a time.

Thank you for choosing Green Apple Pharmaceuticals as your trusted healthcare partner.

“ Our unwavering commitment lies in protecting patient well- being delivering every product with the highest levels of quality, care, and trust to meet global healthcare standards. ”

COMPANY HISTORY

Green Apple Pharmaceuticals was founded with a vision to make high-quality generic, specialty, and critical-care pharmaceutical formulations accessible and affordable to patients around the globe. What began as a modest venture in India with just two passionate individuals has grown into a globally recognized pharmaceutical company, delivering a wide range of life-saving medicines across more than 80 countries.

Our journey has been defined by a relentless pursuit of innovation, adherence to the highest quality standards, and the cultivation of trusted partnerships within the healthcare ecosystem. This unwavering commitment has earned Green Apple Pharmaceuticals a reputation as a dependable and forward-thinking manufacturing partner in the global pharmaceutical industry.

MISSION”

Our mission is the driving force behind everything we do in the pharmaceutical industry. It's rooted in our commitment to improving lives by providing innovative, high-quality, and accessible healthcare solutions. We are dedicated to making a meaningful impact on the health and well-being of people around the world, with a focus on ensuring that essential medicines and treatments are available to all who need them.

VISION”

At the heart of our business lies a clear and powerful vision — to be a global leader in providing innovative, high-quality, and accessible healthcare solutions that improve lives and empower individuals to live healthier, fuller lives. This vision drives everything we do, from research and development to how we interact with patients, healthcare professionals, and communities around the world.

"We are committed to elevating the quality of life, where access to essential medicines is a right fulfilled—not a privilege granted."

OUR MANUFACTURING FACILITIES

WHO-GMP Manufacturing Facilities

Our manufacturing partners' state-of-the-art facilities in India are WHO-GMP accredited and ISO 9001:2015 certified, reflecting our commitment to precision, innovation, and scalability in global healthcare. Equipped with advanced production lines, real-time monitoring systems, and modular infrastructure, these facilities support the manufacture of diverse and complex pharmaceutical formulations. Operating under strict environmental controls and global quality standards, we ensure each batch meets the highest benchmarks for purity, potency, and safety. With built-in flexibility, the facilities are capable of handling customized production runs tailored to the unique needs of every client.

Research & Development (R&D)

At the heart of our innovation lies a dedicated R&D team committed to advancing healthcare through science. Our researchers and scientists tirelessly explore new drug formulations that address unmet medical needs and enhance patient outcomes.

Our focus spans formulation development, process optimization, and innovative drug delivery systems—ensuring each product not only meets but surpasses global benchmarks for quality, safety, and efficacy.

Quality Control

Quality is embedded into every step of our manufacturing process. From sourcing approved Active Pharmaceutical Ingredients (APIs) and excipients to the final packaging of finished products, we enforce stringent quality control protocols to guarantee safety, effectiveness, and regulatory compliance. Our advanced analytical labs & state-of-the-art testing facilities enable thorough inspections, validations, and quality checks ensuring every batch maintains exceptional consistency and reliability.

Dosage Forms

Capsule

Therapeutic Segments

- Oncology
- Neurology
- Anti-Emetic
- Erectile Dysfunction
- Hepatology
- HIV
- Anti Viral
- Anti Biotic
- Dermatology
- Rheumatology
- Cardiology
- Nephrology
- Hair Care
- Diabetology
- Antiparasitic
- Gastroenterology

Storage

Our storage facilities strictly adhere to WHO-recommended Good Storage Practices (GSP). We maintain comprehensive documentation, ensure full data traceability, and conduct regular audits to uphold compliance and quality standards.

Logistics

We offer flexible shipping solutions including sea freight (FCL and LCL), air cargo, and private logistics services. For temperature-sensitive products such as vaccines and biologics, we partner with audited and approved logistics providers. These shipments are safeguarded with data loggers and advanced temperature monitoring systems to ensure product integrity throughout transit.

Our Core Strength

- Premium-Grade Generic & Niche Formulations
- WHO-GMP Approved State-of-the-Art Production Facilities
- Cost-Effective Solutions without Compromising Quality
- Streamlined Supply Chain with Just-in-Time Efficiency
- Unwavering Adherence to Global Compliance Standards
- Expert-Led Regulatory Affairs Assistance
- Seamless Logistics with End-to-End Visibility

Regulatory Expertise

We offer comprehensive end-to-end support for pharmaceutical product registration, assisting our partners with all necessary documentation, including:

- Product dossiers
- Stability data
- Site Master File
- DMF (Open Part)
- Certificate of Pharmaceutical Product (COPP)
- Certificate of Analysis (COA)
- GMP certificates
- BA/BE studies
- Labelling and packaging details
- Product samples
- Summary of Product Characteristics (SPC)

Manufacturing Partnership Process

1. Requirement Analysis

We begin by thoroughly understanding the client's needs covering formulation, packaging, shipping preferences, payment terms, and other key specifications.

2. Manufacturing Agreement

We formalize the partnership through a clear and comprehensive contract, outlining deliverables, timelines, and mutually agreed terms.

3. Product Development & Regulatory Support

Our team provides technical evaluation, formulation development, process optimization, and complete regulatory support to ensure compliance with country-specific requirements.

4. Manufacturing Execution

We source premium-quality raw materials and manufacture products in WHO-GMP-compliant facilities, implementing stringent quality checks to ensure safety, efficacy, and market readiness.

5. Delivery

Finished products are delivered securely and on time to the client's specified location, supported by our efficient and reliable global logistics network.
